Room Pressure Monitoring

- Computrols is capable of monitoring and interfacing with several of the industry's leading room pressure monitoring devices including those from Triatech and Paragon. We are familiar with proper pressure in various hospital rooms to pressurized interlock passages required in the bio-tech industry.

Medical Gas Monitoring (Med-Gas)

- Computrols currently monitors existing Med-Gas installations at Methodist Hospital. Through point monitoring, we are able to maintain the UL listing of the device while providing the information to staff as required. We accomplish this through CBAS's email and paging alarm interface.
